

Follow Wiglet and stay safe

Wiglet's
10 points to
staying safe

1. Regularly wash your hands, hoofs, or trotters for at least 20 seconds with soap and water
2. Regular handwashing should not be replaced by hand sanitiser, particularly after feeding or touching animals and before eating and drinking
3. You must not eat and drink in animal areas and we're afraid any dropped dummies or toys should not be returned before thorough cleaning
4. Avoid touching your face, snout or beak and please avoid touching surfaces unnecessarily
5. Practise social distancing, trot along our one-way systems and follow any suggested routes
6. Carry tissues and cough or sneeze into them or your elbow before safely disposing of tissues in a bin and washing your hands
7. Contactless and card payments only please
8. Remember! This is a working farm so watch out for uneven surfaces, take care around moving vehicles and don't forget, our animals are not pets and they may bite
9. If you feel unwell please DO NOT enter the farm, if you start to experience symptoms of illness while here please alert a member of staff (from a safe distance) and return straight home
10. Enjoy yourselves! – Take photos, make memories and enjoy the outdoors with Wiglet and friends!

SOCIAL DISTANCING - PLEASE KEEP AT LEAST 2 PIGS APART
